# HISTORY OF PF SPORTS

PF was initially a concept in 2017 and came into reality in 2020. It's led by its founder Saud Faisal, who brought the company into existence after a lot of research and hard work. Saud playing from different clubs of Rawalpindi, knew the basic needs of players. He knew how fragile the confidence of a player can be when not treated with the right equipment and seeing there was no right solution in the market, He wanted to fill that gap. In 2020 he executed his vision and became completely focused with PF, with the intention to help players achieve their very best.

*"Success has no definition, it's something you define"*  
~ Saud Faisal
